

THE WEEKLY UPDATE

THE NEWSLETTER OF OHIO UNIVERSITY
DEPT. OF SOCIAL WORK PROGRAM

April 21, 2008

LDF e-News Bulletin

Social workers have a professional obligation to maintain the confidentiality of client information they obtain in the course of providing professional services. This obligation is based in professional ethics, state licensing requirements, and federal regulations. School social workers often find that they may be subject to additional obligations and expectations regarding the privacy of student information that may conflict with ethical and social work licensing standards.

Legal Defense Fund (LDF) e-News Bulletin has provided legal resources and assistance to social workers for 35 years. This electronic mailing is offered 10 times a year to members who support LDF through their NASW membership renewal.
